This book provides a history of slavery in Viking Age Scandinavia by examining a multitude of sources, including archaeology, runic inscriptions, Icelandic sagas, early law, DNA analysis, and place names. Viking society was characterized by different dependencies and by fluid transitions between freedom and enslavement. Thraldom surveys, in nuanced ways, the unique role of slavery in medieval Scandinavia.

Most people know of Valhalla, the World-Tree and the gods of Norse mythology, or the strange hunts and voyages of the ancient Irish tales.

Hilda Roderick Ellis Davidson (born Hilda Roderick Ellis, 1 October 1914 – January 2006) was an English antiquarian and academic, writing in particular on Germanic paganism and Celtic paganism. Davidson used literary, historical and archaeological evidence to discuss the stories and customs of Northern Europe. Gods and Myths of Northern Europe (Penguin Books, 1964) is considered one of the most thorough and reputable sources on Germanic mythology.

The popular image of the Viking as a horn-helmeted berserker plying the ocean in a dragon-headed long boat is firmly fixed in history. In actuality, the Norse explorers and traders were players in a complex exchange of technology, customs, and religious beliefs between the ancient pre-Christian societies of northern Europe and the Christian-dominated nations surrounding the Mediterranean.

Paul Hill, in this stimulating and meticulously researched study, brings together the evidence of the medieval chronicles and the latest historical and archaeological research to follow the struggle as it swung across southern England in the ninth century. He dispels the myths that have grown up around this critical period in English history, and he looks at Alfred's war against the Vikings with modern eyes.

Paul Hill has been writing history books about Anglo-Saxon, Viking and Norman warfare for eighteen years. His first solo publication in 2004 'The Age of Athelstan - Britain's Forgotten History' became a bestseller in a short space of time.

An innovative and accessible overview of how ancient Scandinavians understood and made use of their mythological stories. Old Norse Mythology provides a unique survey of the mythology of Scandinavia: the gods Þórr (Thor) with his hammer, the wily and duplicitous Óðinn (Odin), the sly Loki, and other fascinating figures. They create the world, battle their enemies, and die at the end of the world, which arises anew with a new generation of gods. These stories were the mythology of the Vikings, but they were not written down until long after the conversion to Christianity, mostly in Iceland.

Until very recently Viking and Norse assembly sites were essentially unknown, apart from a few select sites, such as Thingvellir in Iceland. The Vikings are well-known for their violence and pillage, but they also had a well-organised system for political decision-making, legal cases and conflict resolution. Using archaeological evidence, written sources and place-names, this book provides a comprehensive analysis of their legal system and assembly sites, showing that this formed an integral part of Norse culture and identity, to the extent that the assembly institution was brought to all Norse settlements.

Alexandra Sanmark is Reader in Medieval Archaeology at the Centre for Nordic Studies, University of the Highlands and Islands. She specialises in The Viking Age in Scandinavia and the Viking expansion in the west and the North Atlantic, with a particular focus on landscape archaeology. She is the author of Power and Conversion: A Comparative Study of Christianization in Scandinavia (2004).

Michèle Hayeur Smith uses Viking textiles as evidence for the little-known work of women in the Norse colonies that expanded from Scandinavia across the North Atlantic in the 9th century AD.

Michèle Hayeur Smith is research associate at the Haffenreffer Museum of Anthropology at Brown University.

When Lena's younger sister Fressa is found dead, their whole Viking clan mourns- but it is Lena alone who never recovers. Fressa is the sister that should've lived; Fressa was a warrior, and the only one in their clan who could wield a weapon with untold powers. Lena cannot rest until she knows exactly what killed Fressa and why-and how to bring her back.

Elizabeth Tammi was born in California and grew up in Florida, but she is currently double-majoring in Creative Writing and Journalism as an undergraduate at Mercer University in Georgia. When she's not writing, you can probably find Elizabeth at rehearsal for one of her vocal ensembles, or at work for her university's newspaper and literary magazine. Her other interests include traveling, caffeinated beverages, and mythology. Outrun the Wind is her debut novel. You can find Elizabeth online on Tumblr at [annabethisterrified](#), Twitter at [@ElizabethTammi](#), Instagram at [elizabeth\\_tammi](#), and at [elizabethtammi.com](#).

Introduction by Charles W. Dunn. The Middle Ages Series

The great poetic tradition of pre-Christian Scandinavia is known to us almost exclusively through the Poetic Edda.

Patricia Terry has taught literature at the University of California, San Diego, and at Barnard College. Poems of hers have appeared in ArtWord Quarterly, Denver Quarterly, The Hudson Review, The Paris Review, Prairie Schooner, and Ekphrasis. She is the translator, with Nancy Vine Durling, of *The Romance of the Rose* or *Guillaume de Dole*, by Jean Renart.
