A saga, a celebration, a comedy and a lament, this narrative ranks with the classics of California travel literature. Commissioned by the California Coastal Trails Foundation to map out a continuous trail along the Golden State's coastline and through coastal mountains, John McKinney, The Trailmaster, walked from the Mexican border all the way to Santa Barbara before he quit the job—but not the journey. He kept on walking, this time for the sheer adventure of experiencing the contradictions of California. What he discovered was a magnificent borderland that separates the restless civilization from the restless sea. What he learned was that Americans spend too much time building this country, and too little time knowing it. What he gained was a deeper, more spiritual appreciation of a coast—and a country—desperately in need of a new land ethic. This is an exulting, reflective, and often humorous narrative of the ponderings and perceptions of a naturalist-turned sociologist on a highly personal, long-distance trek. Share the adventure—with McKinney as your guide—into the soul of one of the most strikingly beautiful and historically significant coastlines on the face of the earth. Originally published in hardcover by Harper-Collins in 1995, this re-publication includes chapters and passages not found in the original volume. Reviews: 'He walked the entire thing, from Border Field State Park in San Diego County to Pelican Beach on the Oregon border. The inveterate walker and environmental activist recounts the journey in all of its adventure and absurdity.' - San Diego Tribune. 'A book for the true adventurer.' - San Jose Mercury News. 'John McKinney sprinkles a lot of pepper into the salt air when he describes the state's far-flung seashore. Passionate, heartfelt prose.' - Santa Barbara News-Press.

Hiking on the Edge: Dreams, Schemes, and 1600 Miles on the California Coastal Trail

McKinney, John

Trailmaster

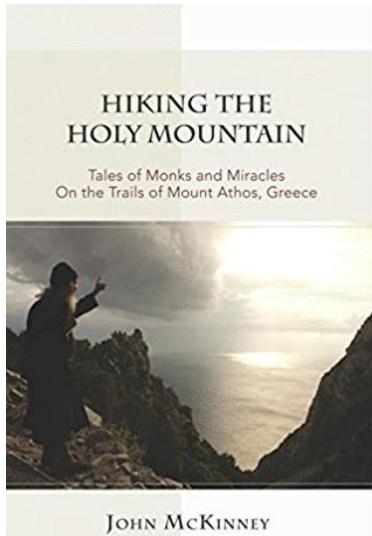

9780934161695

Hiking Narratives

paperback

\$16.95

Until John McKinney agreed to take his epic hike, no one had ever walked along the edge of the state to determine if a California Coastal Trail was even possible. Were the beaches passable at low tide? Could the bluffs be traveled without arrest for trespass? Could a trail be found through the rugged coastal mountains? The intrepid trailblazer found the answers to these questions - and to more profound ones that never occurred to him until he was on his challenging journey of discovery. The natural beauty of the landscapes and seascapes exceeded his high expectations, but what he didn't expect was hiking headlong into so many controversies on the edge of California: nature boutique, coastal access denied, bureaucracies run amok. Near and dear to his heart are the unforgettable people he met along the way, including the founding father of whale-watching, backcountry rangers, nuns praying for mercy for the redwoods and for us all. A saga, a celebration, a comedy, and a lament, this narrative ranks with the classics of California travel literature.

Hiking the Holy Mountain: Tales of Monks and Miracles on the Trails of Mt. Athos, Greece

McKinney, John

Trailmaster

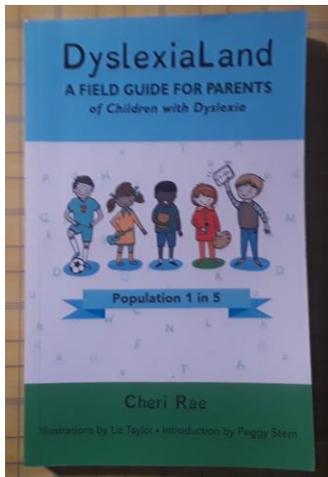

9780934161688

Hiking Narratives

paperback

\$16.95

As the Los Angeles Times hiking columnist, John McKinney had a professional purpose for his trip: to hike around the Holy Mountain and write about Mt. Athos as a hiking destination, a spiritual adventure for outdoor enthusiasts. What he encountered there instead was an epiphany that changed his life and a colorful collection of wise Greek monks, who taught him that on this amazing path we call life, we're often compelled to change direction. His friend Spiro joined him on the journey and they were truly the hiking odd couple. Spiro was a tenderfoot, John an expert hiker. Spiro was a devout Greek Orthodox Christian and fluent in Greek, whereas John's faith was shaky and his Greek was terrible. Spiro believed in the wonder-working powers of the saints and icons, while John was a skeptic who doubted all miracles. By turns reverent and irreverent, John narrates his progress and setbacks on the trail and within himself, as well a series of miraculous events, including the adoption of his son that took place on - and off - the Holy Mountain. Hiking the Holy Mountain is a powerful one-of-a-kind story of saints and icons, ancient traditions and modern-day faith and family.

DyslexiaLand is an imaginary place, but a very real one for the 1 in 5 students with dyslexia. Especially in school, where these otherwise bright children struggle unnecessarily, and parents don't understand why. In this book parents of dyslexic children will find the help they need to navigate through public school with proven strategies, easy-to-follow directions, maps and illustrations. Discover: How to identify your child strengths and challenges, meet with teachers, and to effectively advocate for your child; Which reading approaches work for students with dyslexia, and which ones don't, and why the D word is such a hot-button issue; How to turn obstacles into opportunities, stresses into successes, and how high tech can be a huge help. DyslexiaLand takes the guesswork out of dealing with dyslexia. Whether your child is beginning pre-K or in the middle of high school, there is help here for all dyslexic kids and their parents. Award-winning writer Cheri Rae leads Parents Empowerment Seminars and has helped hundreds of children with dyslexia and their parents, earning her a commendation from the California State Assembly for her advocacy efforts.
